*"FRIENDS FOR FUN, SAFETY, AND KNOWLEDGE"*

**NEXT GET-TOGETHER:** Tuesday 7/9/24 — American Legion, Post 4, 8355 US-42, Florence, KY 41042. Social gathering 6 pm, bring your dinner. Meeting at 7pm.

## SAVE THE DATE!

Wing'D Rider Rally #3 June 25—28, 2025  
RAPID CITY, SD

The [website](#) now features an [Event Calendar](#) which lists dates for all social, camping and rides. Details for each type of event are located separately. Ride event details can be found here [Ride Schedule 2024](#).

Welcome to the River Valley Riders, "The G", a local chapter of Wing'D Riders, located in Northern Kentucky (Florence). We are a group of like-minded motorcyclists who gather to ride! We welcome all brands of motorcycles.

## Kentucky Ride-In 2024—Chapter K—Henderson, KY

The Kentucky Ride-in was hosted by Chapter K, Henderson, KY. We want to thank them for the great job they did in organizing a great weekend. Thanks also to the State Team who provided support to Chapter K. The weekend started out with a dinner Thursday night at Rockhouse on the River. Bruce told them maybe 20 people when he set this up, I think we had double that. It was a perfect place to gather for dinner. Friday was a beautiful day for riding and Chapter K had 2 great guided rides and several self-guided rides. Unfortunately, the weather didn't hold out and Saturday it rained, but that didn't stop some for riding. Others stayed at the facility ,socialized, napped and/or played games, trash and giant Jenga. Chapter K also had a few games for prizes that were fun.

## MAY LUNCH RIDE— CLAUDIA SANDERS

Chapter G took a ride down to Claudia Sanders. A few members of Chapter A met us there and we enjoyed a great lunch.

## JUNE LUNCH RIDE— WALLACE STATION CAFÉ

The “G” took a ride to Wallace Station Deli in Versailles, KY. The weather was a little warm, but several bikes made the trip. A few others joined them for a great lunch. There was also a little frisbee golf.

IT IS WHAT IT IS...or is it?

We've all heard it. It has become a very common phrase in modern society, but if you stop and think about what happens when you put these five little words together, you may decide that you aren't portraying yourself in a very positive light. It's a resignation. A way to express frustration or aggravation about a situation that you don't care to navigate. It's kind-of like giving in, or up because you just don't care enough to make it better. I believe that is why it has become so popular. There is a lot of not caring going on around us and I think it's a real shame.

I love to have FUN. I know all too well that life is too short to not enjoy every glistening drop that we are given. We are put on this Earth for a FINITE period of time. None of us know what the future holds. How long will I live? Will my health hold out until I retire? Will I have time after retirement to enjoy the things I want to do? I just don't know, but I am for sure going to try to get as much as I possibly can out of the time that I'm here.

When Renzo and I joined Chapter G in the Fall of 2008, we had no idea what we had stepped into. Honestly, it was the craziest and best thing we ever could have done together. The people are all wonderful and I can't say that I have ever left a get-together, rally, ride-in, or event with this group, disappointed. No matter where we are or how many times we've been there, I always seem to have fun. It's the people, not the destination that makes every event special to me. This is why I just don't understand when someone says they won't attend an event because it is at the same place. Just because the location is the same, doesn't mean the event won't be a real HOOT. Is it better to just stay home and miss out on the fun? I don't think so.

The BLAST is coming up next month in Danville. Yes, we have been to Danville before, but the rides will be new, the event has a new theme, so the decorations, games, and Saturday fun will all be new. Everyone will be dressed differently and the whole mood will be fresh and groovy. Are you interested to see who will be wearing what? Who will win the On-Bike games? Where will this year's rides take us? What new people will we get to meet? I hope you will all join us and find out.

Life can be an adventure if you choose to live it. I challenge you to consider using a new phrase. Why not try IT IS WHAT YOU MAKE IT! It sounds more positive and leads others to believe that you are solely in charge of your destiny. Take the challenge. Live for the moment and enjoy life as much as you possibly can. Be safe and HAVE FUN!!!

John and I attended the Kentucky Ride-in in Henderson. It was a great weekend, even with the rain. We elected to do a self-guided tour to the LST 325 (LST—Landing Ship Tank).

This historical ship is located in Evansville, IN and was fully operational during WWII. This ship was part of the Normandy landing and launched amphibious tracks and engineering units critical to holding the beaches.

This ship was decommissioned and reactivated by the US Navy several times. With the last decommissioning she was transferred to Greece in 1964. She was decommissioned by Greece in 1999. In 2000 she sailed back across the Atlantic for the final time. She is now a museum and memorial ship to the men who served.

The tour touches on the history and you get to see how where the sailors, slept, at and worked. You can see where the trucks, tanks, etc. were tied down and stored on and below deck.

Remember:

- As always, check the [calendar on our website](#) for events for the month so you can plan your calendar.
- Also, be sure to check out the [Kentucky Road Rider](#) website for State events and news.

TREASURER'S

Hi Chapter G,

Congratulations to our winners from the Tuesday, June 11<sup>th</sup> Chapter Get Together!! Leah Cridlin won the \$10 "Membership" Draw this month. Ray Conrad won 1<sup>st</sup> place for \$23, Ron Harper won 2<sup>nd</sup> place for \$14, and John Eicher won 3<sup>rd</sup> place for \$8.

Thank you to all who participated in the June Gathering.

Also, we want to thank Dean & Kim Hedger who did a great job selling our 50/30/20 tickets. If it was not for Dean and Kim selling tickets this month and our wonderful members and guests purchasing our 50/30/20 tickets, we would not have the opportunity to do the fun events that we do each year.

AWARDS COORDINATOR

Goals, we all have them. They can be called by many names: Bucket List, Dream List, Wish List, Objectives, aspirations and many more. Merriam Webster defines goals as something one hopes or intends to accomplish.

We started making them back in grade school. It could have been as simple as wanting to ride a bicycle or getting someone to like us. In high school, things started getting more serious. We hoped we could get a date with that popular guy or gal. People were asking us what we wanted to do when we graduated. Were we going to college or enter-

ing the workforce. Our answers were our dreams or goals. Today our ambitions are quite different. If you are not retired, you are looking forward to it. If you are retired, you are probably wanting to accomplish things on that "Bucket List." One of those things might be riding the motorcycle to Alaska, riding in the lower 48 states or just riding in all 120 Kentucky Counties.

I know of two members who have set mileage goals for the year. Kim Pommier wants to ride 6,000 miles so she can win the mileage award for top female rider. She already has 3,000 miles to her credit and

with the trips she has planned, it would not surprise me that she makes the 10K club. The other person doesn't have a specific number in mind, he just wants to ride more miles than I do. My only comment to that is "bring it on." It should not be hard to match or exceed my mileage as I have not won a mileage award in years.

So, if you have not set a mileage target for the year, it is not too late. While you are at it, why not set a mark for the number of Chapter Events you will attend.

*Gary, Darlene, Michele & Raven Heil*

It's riding season again and as with every year, this marks the beginning of our best chance to attract new members to our group. In the past we have tried exhibiting our hobby at various locations: malls, motorcycle dealerships, etc. This has not proven to get us the attention that we deserve, and with a very busy calendar this year, wouldn't you rather be out riding than sitting in a parking lot? I know that I would. So this year we will be trying something different. We will be ducking!!

What is ducking you say?? Well, we have acquired some very friendly little ducks who have agreed to wear our Chapter information on their bellies. While you're out riding, if you see a motorcycle or trike sitting somewhere and you think that it would look happier if it was with Chapter G, you simply place a little happy duck on the seat and let it do its magic. The hope is that we play on the riders curious nature and they check out our wonderful website. And, if they like what they see, maybe they will come and check us out. It's simple, fun, and doesn't cost us any time sitting in a parking lot waiting for the riders to come to us.

So get a couple of ducks and keep them in your bike/ trike. You will know when the opportunity is right. Let's just do what we love to do, and get out and ride! If you need ducks, just let me know, or come to a get-together and pick some up!

Stay safe and HAVE FUN!!!! \*\* Donita

Today's motorcycles have come a long way since their invention at the turn of the 20th century. One of the more important developments to become mainstream in motorcycle design is the control of heat. Burning fuel in a motorcycle engine produces lots of heat. If engine cooling is insufficient to remove the waste heat, the engine's internal parts will wear out prematurely or fail outright.

Early engine design used rows of fins cast directly on the hottest parts of the engine to conduct the heat away and disperse it into the air. More modern designs have moved to liquid cooling to control engine temperature. The engine coolant contained in a closed system is pumped into and through various passages within the engine structure directly to where the heat is generated, then out through radiators equipped with fins to conduct the heat from the liquid and disperse it into the air. Some engine designs use a combination of air and liquid cooling, allowing for a more "classic" appearance, yet still providing heat control in the hottest parts of the engine.

Unlike motorcycles, which have experienced a great deal of evolution especially where heat control is concerned, we humans have basically remained the same for the last few thousand years. The food we eat is used to power our bodies and produces a lot of heat in the process. As in motorcycles, our body heat must also be controlled, or we will wear out and fail prematurely.

Our bodies use a combination of liquid and air cooling with both an open and closed system. Internally, our blood is pumped by our heart through every part of our bodies absorbing the heat generated at the source. As our body temperature rises, the closed system of blood vessels will move closer to the skin to disperse the heat there. Continued temperature rise will trigger our open cooling system of water perspiration. Sweat glands excrete water onto the skin which absorbs heat from the blood vessels below and carries this heat away as the sweat evaporates.

Both motorcycle and human body cooling systems ultimately rely on air circulation to carry the heat away from the parts needing to stay controlled. Motorcycles have electric fans that will keep the air moving over the radiators when the machine is stopped or otherwise moving too slowly to stay cool. Our bodies are not equipped with fans, so we must find alternate ways to supplement the natural cooling process. Drinking cool (not cold) liquids can help by absorbing heat in our core, and at the same time replenishing the water we are losing when we perspire. We can also place wet towels or other material in strategic places like around our neck where the top part of the item is sticking out where the airflow over our collars pulls the heated moisture away.

Both motorcycles and human beings have a maximum temperature where their cooling systems can no longer keep up with the heat being generated while working in their environment. Motorcycles usually have a gauge or other visual indication they are close to overheating. Human beings are not equipped with a gauge as such but do offer signs of the onset of heat related issues. Things like skin that is hot and dry to the touch, not needing to urinate at rest stops, dizziness, nausea, muscle cramps, headaches, and heavy breathing are some symptoms of heat stress. If you are riding and begin to experience any of these symptoms, stop and take a break in a cool place or a shady spot, and drink some liquids, preferably water. Motorcycles that overheat will need a tow vehicle. Human beings that overheat may need a hearse.

Until next month – stay cool.

CAMPING COORDINATOR

Hello Campers,

It is hot outside for sure. Do you have camping plans? If so, make sure you are taking a lot of water to keep you hydrated. Plan your activities for early in the day or later in the evening. If you are fortunate enough to have an air conditioner in your camper, make sure it is in great working order.

If you haven't made reservations already, there are still plenty of spaces to make your reservations for the upcoming camping trips.

July 18 - 21 at Jenny Wiley State Park. Rick is on site #C082. There is beautiful riding in this area. We were just there

last year for the KY Ride In. Saturday Chapter G will be attending Chapter T's cook-out/gathering at Dew Dam 5:30pm Make sure to plan to join the fun. You can also make reservations at the Lodge if that is your style of camping

August 22-25 - General Butler State Park. Rick is on site #48. August 24th is also the date of the Lunch Ride to Two Rivers Restaurant located at General Butler. Some of the campers plan to ride back to the G meeting spot, then ride back down for the lunch ride. If you are that kind of rider, then you will get your fill of riding that weekend along with more local rides on Friday.

September 12-15 - Big Bone State Park. Rick is on site #4. Riding, eating and playing games are always the plan when we are at this camping event.

Contact us or sign up at the next gathering!

Remember, camping is cool..or maybe hot, just depends on the time of year

The Buckeye Dairy Bar and Mini-golf trip was so much fun. A longish ride, about 230 miles round-trip for hot dogs, cheeseburgers, onion rings, ice cream and a really fun round of mini-golf on an amazingly beautifully landscaped course. Yes, there was a single hole-in-one, some water hazards retrievals and lots of fun. The return ride home took us on some lovely wide sweepers in the Appalachian foothills of Ohio.

Wallace Station. Wow, the food was soooo good. No wonder Guy Fieri went there. Although the temperature that day was a steady 93 degrees, we had 6 bikes for the ride and 5 people met us at the restaurant, including Windy Quire and new member Paul Grider. If you haven't been here, it is totally worth the trip. The way home saw us stop at Howard's Place in Falmouth for ice cream.

The "East-side" Ice Cream rides on 2 Thursdays a month have started and so far we have an average of 12 people/9 bikes. A lot of work and a fun collaboration with Gary and Michele to start and gauge interest for this program. We've been able to make several of Steve Centner's Wednesday rides, and they surely live up to all the hype. He's made it to a couple of Thursday rides, and we hope he likes "following the red bike".

We'll have lots more detailed information at the July meeting about the Mansfield trip at the end of July.

Upcoming ride information can be found on the website on the Ride Events tab. Or feel free to text or email me for any information or to sign up.

### Utility Trailer — Make Offer

Contact Charlie Thornton 859-653-1074

This unique trailer once belonged to Ara Rouse. He modified this trailer with lots of storage. I'm told there is even a small grill in one compartment.

### Here's the Scavenging for NKY– Good Luck!

- This stop is in Williamstown, where lots of Heroes go. Be humble and be reverent. This one, I'm sure you know.
- On Harris Pike in Independence, where Buddy makes his pies, you will find us proudly standing where Ole' Glory catches your eyes.
- Back in '88 Wall brook was my name, when Raiman called me home, and now the Sisters do the same.
- In the town of Vevey, along route 56, two very interesting critters can be found along the way. One is fun and "tubby" and the other quite macabre, but both will get you points if you stay on the job.
- Head down East Vaughn Drive, before it turns to West in the sweet small town of Madison, where Ice cold treats are best.
- Way down 42, where the river seems to stop, by 1400 feet of concrete and some wires and stuff on top, is where you'll find your answer for this crazy puzzle stop.
- Way back in 1811 William Arnold called me home, I'm made of big strong poplars, but my foundation ...it did roam. Now I stand on South Main in the center of Williamstown, and if you can find me you can write your answer down.
- One Hundred two foot high and made of heavy stone, I brought water to the troops who called Ft Thomas home.
- Many Wednesday nights you'll find "G" folk gathered here, having fun and laughing with cones of creamy cheer. I'm 6 miles south of Walton on the highway 25 and if you care to join them, I'm really worth the drive.
- I am the mighty Huey, in which many Veterans rode, in the war back in the 60's when much blood was spilled so cold. I stand in solemn honor, amongst a little flora, on the banks of the Ohio, in the City of Aurora.
- Find Butler State Park and go out the back way, take a left on the dead end, and do not dismay. Go as far as you can and then take a short walk, and you might just find the secret lock.
- Down Crittenden way on a nice sunny day, take a ride down Bagboy until it turns Shady. Right is the way to ride your fine steed, until you come to Menefee. Now check out the trees above your head and words of disbelief will soon be said.
- A sweet little ride down route 8, in Silver Grove, where the treats are great, since 1952 this is where many have ate.
- It looks like a cone that's been placed upside down, with that sweet creamy ice cream pushed into the ground. Near Edmondson's Grocery on US25, this Williamstown stop will make a nice ride.
- Peggy is her name and she was a sweet ride when she was built back in 1935. Encased in glass on a street called Front, Lawrenceburg is where you can start this hunt.
- In Todisco on route 3 is where you'll find this fine Lady – with 15 acres of hard stone that is so shapely

## The Fourth of July

The Fourth of July—also known as Independence Day or July 4th—has been a federal holiday in the United States since 1941, but the tradition of Independence Day celebrations goes back to the 18th century and the [American Revolution](#). On July 2nd, 1776, the [Continental Congress](#) voted in favor of independence, and two days later delegates from the [13 colonies](#) adopted the Declaration of Independence, a historic document drafted by [Thomas Jefferson](#). From 1776 to the present day, July 4th has been celebrated as the birth of American independence, with festivities ranging from [fireworks](#), parades and concerts to more casual family gatherings and barbecues. The Fourth of July 2023 is on Tuesday, July 4.
