Come and tour over 200 American built cars and trucks dating from 1900 to 1980. Revisit Your memories of YOUR days gone by. Share the thrill of remembering those special moments of Your past, which naturally bring back the cu in engine, the auto or 3 speed on the floor, the rumble seat and the cool paint jobs! There is also a collection of Miniature Trains.

This is one man's personal collection. It is not a business and only offers complimentary tours with donations cordially accepted for Housing Opportunities of Northern Kentucky (HONK). They ask for a small donation of \$15 per person.

HONK has been in existence since 1991, **Housing Opportunities of Northern Kentucky** has helped members of the Northern Kentucky community to realize the American dream of homeownership by providing affordable housing solutions to deserving families and individuals, allowing them to reconstruct their lives by building their futures on a solid foundation of faith, education, and support. To date they have built 37 homes, rehabbed 112 homes and helped 113 new home owners.
